## *Clinical Pathological Conference – Carle*

**“A 38-year old man with dyspnea and abnormal chest radiograph.”**

*Presented by:*

**Chief Discussant: Donald Greeley, MD**

**Facilitator: James Kumar, MD, MS**

**Tuesday, December 13, 2011**

**12 Noon – 1:15 p.m.**

**Carle Forum Pollard Auditorium**

**Lunch Provided**

**Category I CME Credit available**

**Purpose:** This conference will improve the clinical problem-solving skills of clinicians through observation of a faculty member working through an unknown case starting only with the patient’s chief complaint.

**Target Audience:** Primary care physicians including internists, family practitioners, hospitalists, specialist physicians

**Learning Objectives:** *Upon completion of the activity, participants should be able to:*

1. Formulate a logical and systematic approach for the evaluation and management of patients with dyspnea and abnormal chest radiograph.
2. Describe the pathophysiology of the underlying diseases manifesting with dyspnea and abnormal chest radiograph.
3. List two risk factors for the underlying condition.

*For more information, please contact Linda Stone at 383-4615.*
