

University of Illinois College of Medicine

Medicine Grand Rounds

“Primary Care Imaging”

Presented by:

Stephen A. Boppart, MD, PhD

Bliss Professor of Engineering

Departments of Electrical and Computer Engineering, Bioengineering, and Medicine
Beckman Institute for Advanced Science and Technology
University of Illinois at Urbana-Champaign

Tuesday, November 15, 2011

12:15 – 1:15 p.m.

Carle Forum Pollard Auditorium

611 W. Park St., Urbana, IL

Lunch provided at 11:45 a.m.

Category I CME Credit available

Purpose: To provide evidence-based or case-based reviews of current medical diagnosis and therapy, controversies in medicine, and new developments in medicine.

Target Audience: This educational series is designed for Internal Medicine and Subspecialist physicians. Other allied health care professionals are welcome to attend.

Learning Objectives: *Upon completion of the activity, participants should be able to:*

- 1) Describe the current use of optical imaging instruments in Primary Care.
- 2) Assess the etiologies of otitis media and diabetic retinopathy and how these diseases can be monitored.
- 3) Identify new developments for advancing optical imaging in Primary Care using optical coherence tomography (OCT).
- 4) Assess how OCT in Primary Care Imaging can improve diagnosis and quantitatively monitor progression/regression.

For more information on this series contact Kirsten Lawhead at 383-3211.

The University of Illinois College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Illinois College of Medicine designates this live educational activity for a maximum of 1 (one) *AMA PRA Category 1 Credit™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.
